About INDIA MedTEC Fair 2027

India MedTEC Fair 2027 provides a unique platform for industry and academia to showcase their products, technologies, and innovations. Targeting 150 industry stalls and 50 academia stalls, the exhibition is designed to connect exhibitors directly with potential customers, decision-makers, procurement teams, healthcare professionals, and technology adopters.

With an expected footfall of 10,000+ healthcare professionals from leading institutions such as PGI, Chandigarh (Postgraduate Institute of Medical Education and Research) and other major hospitals, medical colleges, and healthcare organizations, the expo offers exceptional opportunities to generate high-quality sales leads, demonstrate products to a targeted audience, secure new customers, build distributor and channel networks, strengthen brand visibility, and accelerate business growth. The exhibition will serve as a powerful platform for companies to convert meaningful interactions into long-term commercial relationships and increased sales.

Organizers

DST-Technology Enabling Centre (DST-TEC) at Panjab University, supported by the Department of Science and Technology (DST), Govt. of India (GoI), actively builds industry-academia connections through initiatives like technology transfer conferences, technology deployment meets etc. DST-TEC has successfully co-organized Machma Expo 2025, Krishi Mach Expo 2026, and the CRIKC Technology Exhibition (2022) at Panjab University, demonstrating its experience in organizing large-scale exhibitions that foster industry-academia collaboration and technology commercialization.

PGI, Chandigarh, an institute of national importance, is considered as one of the leading medical education institutes in the country. It is the leading tertiary care hospital of the northern India region and caters to patients from all over Punjab, Jammu and Kashmir, Himachal Pradesh, Uttarakhand, Haryana, Bihar and Uttar Pradesh.
